Tas Gas Networks Pty Ltd – Transmission Pipeline										
Service Usage Information										
(i) the total quantity of natural gas metered as	January 2025									
having been injected into the pipeline during	1,162.54 kscm									
the month	43,292.75 GJ									
(ii) the total quantity of natural gas metered as	January 2025									
having been withdrawn from the pipeline	1,160.79 kscm									
during the month	43,227.56 GJ									
(iii) the total quantity of natural gas scheduled	N/A as the Shipper schedules for all gas on the									
for injection into the pipeline during the month	pipeline.									
(after taking into account rescheduling)										
(iv) the total quantity of natural gas scheduled	N/A as the Shipper schedules for all gas on the									
for withdrawal from the pipeline during the	pipeline.									
month (after taking into account rescheduling)										
(v) of the scheduled quantities referred to in (iii)	N/A.									
and (iv), the quantities attributable to each										
pipeline service on the pipeline as identified in										
the pipeline service information										

Tas Gas N	etworks Pty Ltd – Distribution Pipeline									
	sage Information									
This publishing requirement is not applicable because the distribution pipeline is not classified a large distribution pipeline within the definition (i.e. not a Scheme Pipeline).										
Service Av	vailability Information									
that the se	k of the firm capacity of the pipeline ervice provider has available for sale nonth in the following 36 month	See attached.								
informatio	on about matters expected to affect	There are no plans to increase the capacity of								
planned e	ity of the pipeline (including any xpansions of that capacity) for each the following 12 month period,	this network.								
(i)	the expected start and end dates of the matters expected to affect the capacity of the pipeline; and									
(ii)	a description of the matters expected to affect the capacity of the pipeline; and									
(iii)	the expected capacity of the pipeline during the period it is affected by the matters referred to in (i) and lii)									
availability	on on any other limitations on the y of the pipeline services identified in ne Service Information.	N/A.
